Safe Crisis Management

Safe Crisis Management (SCM) training equips employees with the skills to safely and confidently manage challenging behaviour through non-physical intervention techniques.

Sometimes people act and behave in a way that puts themselves and/or others at risk. SCM training shows how these instances can be avoided, and the ways to manage and de-escalate unwanted behaviour. It demonstrates techniques for encouraging positive behaviour choices and offers training on what needs to happen once the occurrence is over.

Employees are required to undertake and pass SCM as the training is mandatory for care and education roles.
